## A BRIEF GUIDE TO THE GENERATIONS

### GENERATION X

Born between 1965 and 1980, now in their forties and fifties. Generation X created the Internet. When they were teenagers, mobile phones were enormous, and not many people had computers at home. They had to deal with big changes in technology. But this generation is adventurous and adaptable – they are not afraid of change. Now they use wearable technology to stay fit and healthy. Generation X believe in looking after themselves and staying young. Generation X grew up with both parents at work during the day. This is one of the reasons they are independent. Generation X are very sociable, but also hard-working. Even when they go out until late, they still get up for work. They're passionate about music. They invented punk, grunge and techno. When they were teenagers, they listened to music on cassette and CD players.

### GENERATIONSGENERATION Y / MILLENNIALS

Fifty-three percent prefer to spend money on an experience than a possession. Lots of Generation Ys went to university, but because of unemployment they find it hard to get jobs that make them happy. Many of them live at home and depend on their parents. They get married later than Generation X — the average age for women is twenty-seven and for men it's twenty-nine. They would like to be more independent, but they can't afford to be.

Instead they focus on global problems like terrorism and global warming. They're sociable and they enjoy connecting with friends on social media, but they can also feel very lonely.
